Allyship in Action
June 21st: 10:00AM-11:30AM

Everyone owns and contributes to workplace culture. But what does that mean when someone says or does something that could leave others feeling disrespected or marginalized? Who responds, and how? Allies help create a strong, inclusive culture through daily actions and practices that address problematic behavior, even when they are not the target of such behavior themselves. This session will explore what allyship means and how to practice it in a way that supports a collaborative, productive environment for all.
