

Type [PO2]

Field Definition

The following table provides the definition for Type.

Field Name	Description
Type	Line type of item to be requested or purchased.

List of Values

The following table provides definitions of the values for Type.

Value	Description
Amount Based	This is based on the quantity or amount of items or services purchased. Use this type for blanket orders, such as services against which a partial payment is planned with a quantity of 1 and \$3,000 for the total price.
Goods	This is all materials that are individually recorded and printed (separate items of value or individual significance). Use this type for products being purchased for quantities and leases.
Outside processing	This is an outside processing line type (the RF does not use).
