

## Release Notes

Below outlines the RF BI Service Requests that were addressed in the most recent release for the RF Report Center. This release was moved into the production environment on Saturday, September 9<sup>th</sup>, 2017.

Category	Description	Service Request Numbers
Software Upgrade	<p>Informatica is the name of a tool used to run our ETL processes. ETL is short for extract, transform and load. This process brings transactions from the Oracle application to the RF Report Center. We are currently on version 9.6.1 and are upgrading to 10.0. After the upgrade to the new version, the Report Center has to be tested to ensure that the ETL process completes successfully.</p> <p>The Data Services team along with a Campus testing group has tested this process and we are pleased to announce that there were no defects reported.</p> <p>The following areas have been tested:</p> <ol style="list-style-type: none"> <li>1. COEUS reports</li> <li>2. Dashboards drills and prompts</li> <li>3. Changes made to every subject area</li> <li>4. Past bug fixes</li> <li>5. Reconciliation Messages</li> </ol>	344544

If you have any questions in regards to the above listed release notes, please contact the Data Services team by sending an email to [rreportcenter@fsuny.org](mailto:rreportcenter@fsuny.org)

## Future Releases to RF Report Center

Visit the [RF Report Center page](#) on myRF to obtain the most current release schedule and Report Center information and resources.

*Please Note: There will not be a September release due to the complexity and size of the October release.*

*Thank you for your continued support as we continue to enhance the RF Report Center to provide a robust analytical tool for the user community.*
