Enter Leave

To Determine available Accrual Balances:

1. Click the [Show Accrual Balances](#) link at the top of the timecard
2. Each accrual balance you are eligible for is displayed along with the balance as of the end of the pay period

Tip! Balances will only be reflective of the last timecard submitted. If you are behind in submitting timecards, these amounts may not be accurate and HR may have to adjust your timesheet after submission.

Entering leave time:

3. Select the type of leave you are taking from the Hours Type drop down box.
4. For leave type of Sick you must complete the Absence Reason field. DO NOT complete a reason for Personal, Holiday, or Vacation.
5. Enter the amount of leave taken as hours.

Tip! Partial hours are represented with a decimal, where each 15 minute increment is represented by .25. Do not enter time worked or leave taken in anything less than 15 minute increments.

The screenshot shows the 'Show Accrual Balances' section of a timecard system. At the top, there is a link '+ Show Accrual Balances' (labeled 1) and a 'Period' dropdown menu set to '02/07/2015 - 02/20/2015' (labeled 2). Below this, there is a 'Hide Accrual Balances' link and a tip: 'TIP The accrual balances are as of: 20-Feb-2015.' The accrual balances are listed as follows:

PTO Holiday Plan NEX 37 Half	0	PTO Non Worked Hours	0	PTO Personal NEX 37 Half	37.5
PTO Sick NEX 37 Half	15	PTO Vacation NEX 37 Half	22.5		

Below the accrual balances, there is a table for entering leave time. The first column is 'Sick' (labeled 3), the second is 'Employee Illness/Injury(Sick)' (labeled 4), and the third is 'Hrs' (labeled 5). The 'Hrs' column has a value of '7.5' entered.

Using Non-Worked Hours (Non-exempt Salaried Employees Only):

6. Non-exempt salaried employees must record the number hours covered by their salary. If you find that you must be absent but do not have enough accruals (or the appropriate type of accrual) to cover the absence, you still need to log the absence on your timesheet. Before doing so you should check with your supervisor and/or HR office to determine the appropriate method to record this absence. You may be asked to record this time against the Hours Type Non Worked Hours. A reason is required for this Hours Type as well. Examples of reasons in this category are Jury Duty, Court Appearances, leave of absence for military service or child care, and finally vacation or sick if there are no accruals in these categories..

Tip!

Each reason in the list has either "(Sick)" or "(Non Worked)" as part of the choice. You must pick the reason with the label that matches the Hours Type. For example, if you have Non Worked Hours as the Hours Type you must pick a reason with (Non Worked) after it. If you need to communicate any information about your entries to your supervisor or HR office, use the comments box.

CREATE A TEMPLATE

How to save a timecard as a template

Non-exempt salaried employees may find that creating a template is an easy and efficient way to enter time. A template is useful if you generally work the same days/time every biweekly period. The template can then be loaded every time you enter a new timecard and then modified for any deviations from the normal schedule.

Enter timecard in and out times for your normal working hours

1. In the Template Name field enter a name for your template
2. Click the **Save as a Template** button
3. Next time you enter a timecard click in the Template drop down box and select the name of your saved template
4. Click the **Apply Template** button and the in and out times will complete according to the template
5. Modify the timecard with current period information (i.e. leave hours or in and out times)

The screenshot displays a timecard entry interface. At the top, there is a table with two columns: 'Worked Hours' and an empty column. Below the table are two rows of input fields, each with a dropdown arrow. Below these fields are two buttons: 'Add Another Row' and 'Recalculate'. Below the buttons is a 'Template Name' field containing 'Standard Working Hours' and a 'Save as a Template' button. A red dashed line with a circled '1' points to the 'Template Name' field, and another red dashed line with a circled '2' points to the 'Save as a Template' button. Below this is a 'Period' field containing '07/25/2015 - 08/07/2015' and an information icon. Below the period field is a 'Template' dropdown menu showing '- Standard Working Hours' and an 'Apply Template' button. A red dashed line with a circled '3' points to the 'Template' dropdown, and another red dashed line with a circled '4' points to the 'Apply Template' button.
