

Daniel Vaughn

Manager of External Technology
Collaborations
Corning Incorporated

Business & Industry

Dan Vaughn is the Manager of External Technology Collaborations at Corning Incorporated. He manages the organization which enables Corning's roughly 400 scientists to collaborate on various research projects with external entities - primarily universities and US government agencies. The External Technology Collaborations organization negotiates agreements, provides contract administration services, builds awareness within the Corning Technology Community of potential collaborators, and manages relationships with key technology collaborators. Dan has worked for Corning for nine years, primarily in Business Development and Innovation roles and has extensive experience negotiating agreements, and developing and managing relationships.

Dan's previous work experience includes leading the acquisition of privately owned companies as the Manager of Mergers and Acquisitions for Carlisle Companies Incorporated, and supervising nuclear plant operations as a supervisor in Lockheed Martin's Nuclear Operations Program.

Dan has an M.B.A from Cornell University's Johnson Graduate School of Management, a B.S. in Mechanical Engineering from Rensselaer Polytechnic Institute, and he is a graduate of the United States Naval Nuclear Propulsion School.
