

# Looking for a doctor?

## Finding one online is fast and easy

The right doctor can make all the difference — and choosing one in your plan can save you money, too. Our **Find a Doctor** tool helps you find doctors, hospitals, labs and other health care providers in your plan. If you decide to get care from doctors outside the plan, it'll cost you more and your care might not be covered at all.

## Here's all you need to do to find a doctor near you:

1

Go to [empireblue.com/find-doctor](http://empireblue.com/find-doctor)

2

You can look for a doctor by using either:

- **Prior to January 1- Search as a member: Enter the 3 letter prefix "RFB" to get started and then skip to Step 4.**
- **After January 1: Log in with a username and password or with the member number on your ID card.**

3

Once you log in (after January 1), select the **Find Care** option on the welcome menu.

4

Next, choose who you'd like to see. You can search for a doctor nearby or use the doctor's name.

5

Select a provider to get details, like:

- Specialties
- Gender
- Languages spoken
- Training
- A map of their office location
- Phone number

### Going mobile

Search for doctors, hospitals and more on your smartphone or mobile device.

And don't forget that going mobile keeps everything you need to know about your plan — including medical — in one place. It's simple, personal and all about you. Simply download the **Sydney** app to get started.
