The RF was chartered in 1951 by the New York State Board of Regents as a non-profit education corporation, governed by its own independent board of directors to:

- Assist in developing and increasing the facilities of State University of New York to provide more extensive educational opportunities for and service to its students, faculty, staff and alumni, and to the people of the state of New York, by making and encouraging gifts, grants, contributions and donations of real and personal property to or for the benefit of State University of New York.
- Receive, hold and administer gifts or grants, and to act without profit as trustee of educational or charitable trusts, of benefit to and in keeping with the educational purposes and objects of State University of New York.
- Finance the conduct of studies and research in any and all fields of the arts and sciences, of benefit to and in keeping with the educational purposes and objects of State University of New York.

WHAT IS THE RF?

The SUNY Research Foundation (RF) is the largest comprehensive university-connected research foundation in the country and supports a vibrant research ecosystem that cultivates innovation and entrepreneurship across multiple key areas including Artificial Intelligence, Clean Energy, Biotechnology, Longevity, Substance Addiction, Nextgen Quantum Computing, Environmental Health, and Resiliency.

WHAT DOES THE RF DO?

Driving social impact, enhancing human wellbeing and stimulating economic growth, the RF provides SUNY’s 30 state-operated campuses with an infrastructure of people, technology, and processes that enable faculty to write and submit grant proposals to agencies, foundations, and companies; establish contracts and manage funding awarded to run campus-based research projects; protect and commercialize intellectual property created within those projects; and establish enduring partnerships that shape the future.

Our mission is to provide talent, services, and technology that empower SUNY to research, innovate, and transfer discoveries that transform the world’s knowledge economy.

Our vision is to make SUNY the best place for faculty, students and staff to research, innovate, and solve the world’s most pressing problems.

When a grant or contract is awarded to a SUNY faculty member, the RF administers and manages these funds to ensure compliance with university, grant sponsor, and government policies and procedures. Funding received by the RF in the form of a sponsored award is administered at the direction of the faculty member on whose behalf the award was received, subject to the policies and procedures of the given campus, as well as the RF, along with any other state or federal requirements. All activity at a campus location takes place with the oversight of the RF operations manager who has designated authority to conduct RF business at his or her campus. SUNY research expenditures system-wide are nearly $1.1 billion. The RF System Dashboard displays expenditures and other key metrics for research and innovation activity at SUNY campuses through the RF.
