4. For leave type of Sick you must complete the Absence Reason field. DO NOT complete a reason for Personal, Holiday, or Vacation.

Using Non-Worked Hours (Non-exempt Salaried Employees Only):

6. Non-exempt salaried employees must record the number hours for which they are paid. This is determined by your FTE and standard work week. If you find that you must be absent but do not have enough accruals (or the appropriate type of accrual) to cover the absence, you still need to log the absence on your timesheet. Before doing so you should check with your supervisor and/or HR office to determine the appropriate method to record this absence. You may be asked to record this time against the Hours Type Non Worked Hours. A reason is required for this Hours Type as well. Examples of reasons in this category are Jury Duty, Court Appearances, leave of absence for military service or child care, and finally vacation or sick if there are no accruals in these categories. (see pg. 8.1 for a complete list of reasons)

Tip!

Each reason in the list has either “(Sick)” or “(Non Work)” at the end of the reason. You must pick the reason with the label that matches the Hours Type. For example, if you have Non Worked Hours as the Hours Type you must pick a reason with (Non Work) after it. If you need to communicate any information about your entries to your supervisor or HR office, use the comments box.

To Submit:
2. Once you have completed your entries for the period and are ready to submit the timecard to your supervisor for approval click the Go To Next to Submit button. This will bring you to the review screen.

Log Out to Protect Your Personal Information!
When you’ve completed your session, click Logout in the list of links in the upper right corner of the screen. This will help prevent unauthorized access to your information.
SAVE OR SUBMIT A TIMECARD

Your last timecard submission

If you separate from the RF for any reason, you can complete your last timecard on-line even after your last day of work as self service will still be available to you. Although, the entire biweekly period will appear you will not be able to enter any time out of the office after your termination date. See pg. 7.3 for the error message you will receive if you try to do this. Your leave balances will no longer appear on your last timecard, Contact your HR office to confirm your balances prior to entering your time.

You may NOT extend your termination date to include non-work days such as holidays or vacation time.
CREATE A TEMPLATE

How to save a timecard as a template

Non-exempt salaried employees may find that creating a template is an easy and efficient way to enter time. A template is useful if you generally work the same days/time every biweekly period. The template can then be loaded every time you enter a new timecard and then modified for any deviations from the normal schedule.

Enter timecard in and out times for your normal working hours

1. In the Template Name field enter a name for your template
2. Click the **Save as a Template** button
3. Next time you enter a timecard click in the Template drop down box and select the name of your saved template
4. Click the **Apply Template** button and the in and out times will complete according to the template
5. Modify the timecard with current period information (i.e. leave hours or in and out times)
THE MY ACCRUALS MENU

Features of the My Accruals menu

The My Accruals menu has features that will help you view absence history and to project accruals.

Absence Summary
The Absence Summary list gives you historical information about your absences for any timecards that have been submitted and approved by your supervisor. Additionally, there is a search feature that allows you to filter by absence type, absence category, or timeframe.

Entitlement Balances
The Entitlement Balances tab is a tool which can be used to project your balances into the future.

Note: The assumption when projecting accruals is that you will remain in an accruing position at your current FTE and work the required hours. The projection is not a guarantee that you will earn the anticipated amount of accruals due to changes in FTE, unpaid leave, etc.

In the Effective Date block, enter the Pay Period End Date for which you wish to view Leave Accruals and click Go.

Tip! If you are looking to project balances beyond December of a given year, the totals will only reflect accruals earned from the start of projected year through the Effective Date you entered unless the Carry Over process at year end has been run. To get the full balance you will need to add your current accrual balances to the results of your projection. This will not be necessary once the Carry Over process has run.
Notifications and Email Preferences

Notifications
As you submit timecards and your supervisor approves them you will receive email notifications letting you know these actions have occurred. These notifications will also appear in your Worklist (next to your Main Menu) You can clear these notifications by:

1. Clicking Full List
2. Selecting the notifications you wish to clear
3. Clicking Close

Tip! Any other buttons on this form, for example Reassign, should not be used.

Email Preferences
You may choose to turn off your email notifications by:

4. Selecting Preferences at the top right of your Main Menu screen
5. Under the Notifications section using the Email Style drop down box, you can select “Do Not Send Me Mail” instead of the default “HTML mail”

Tip! If at any point you stop receiving email notifications when you did not select this option, ensure this value does not say “Disabled”. If so change it back to the value “HTML mail”. If this does not correct the problem contact Customer Services.
