

Annual Notice of Women's Health and Cancer Rights Act

Did you know that the Women's Health and Cancer Rights Act of 1998 requires that all RF health plans provide benefits for mastectomy-related services?

Services include all stages of reconstruction and surgery to achieve symmetry between the breasts, prostheses, and complications resulting from a mastectomy, including lymphedemas.

For more information, refer to the Research Foundation Benefits Handbook, available from the RF Benefits Website (www.rfsuny.org/benefits) or from your campus Human Resources Benefits Office.
