If the categories should be the same, click **No** and change the NACUBO category for the award or project, as follows:

- To change the award NACUBO, refer to Change Award Information.
 - To change the project NACUBO, if expenditures have been made on the project, a new project will need to be created with the correct NACUBO category. Refer to Create a Project. If expenditures have not yet been made on the project, refer to the Modify Project or Task Information.
